

QVS Tech Conflict of Mineral Statement

The mining of certain minerals in the Democratic Republic of Congo (DRC) and the adjoining countries partially contributes to significant human rights abuses and to the financing of violent conflicts in this region. In 2010, U.S. Congress passed legislation that is usually referred to as “Dodd-Frank Act” (full name: “Dodd-Frank Wall Street Reform and Consumer Protection Act”). Section 1502 of the Dodd-Frank Act adopted by the U.S. Securities and Exchange Commission (SEC) require companies who file reports with the SEC to disclose whether the products they manufacture or contract to manufacture contain "conflict minerals" that are "necessary to the functionality or production" of those products. "Conflict minerals" contain tantalum, tin, tungsten (and the ores from which they originate) and gold, regardless of where they are sourced, processed or sold.

QVS Tech Inc. does not file reports with the SEC and therefore has no legislative obligations to comply with the conflict minerals requirements covered in Section 1502 of the Dodd-Frank Act. At the same time we recognize the SEC final rule for Section 1502 mandates our direct and indirect customers to undertake due diligence across their global supply chains.

As part of our commitment to global social responsibilities, QVS Tech Inc. prohibits using Tin (Sn), Tungsten (W), Tantalum (Ta), Cobalt (Co) and Gold (Au) in our products from any source whose supply chain, back to the mines of origin of the minerals used to produce these metals, contributes to human rights abuses in the Democratic Republic of Congo or adjoining countries.

QVS Tech Inc. is committed to operate in full compliance with governing laws and to adhere to appropriate customer requirements applicable to the procurement of the refined metals used in QVS Tech products. QVS Tech Inc. will take measures to exercise due diligence on the sources of refined metals used in its products and as much as possible to purchase material from suppliers in an effort to achieve a “conflict free” supply chain. QVS Tech Inc. will communicate this statement to our suppliers of refined metals and require that they adopt similar requirements for materials supplied to QVS Tech Inc.

QVS Tech Inc. management is committed to involvement in and oversight of the company’s procurement programs and implementation on a conflict free supply chain.
